## Federal Supply Service Information Technology Schedule Contract No. GS-35F-0504T

It is with great pleasure VisionOnline, Inc. announces award of General Services Administration (GSA) Schedule Contract thru 2013.

Under the GSA Schedule contract, government customers are provided with direct access to VisionOnline information technology solutions, services, and products. Using Vision schedule prices, government procurement officers can quickly procure Vision traditional products and services available to our commercial clients for years.

At VisionOnline we have committed to create the finest customer service delivery systems. Vision customers are provided with real-world solutions and tools including front-end systems analysis, systems design, installation, programming, network services, and implementation support.

VisionOnline's GSA Schedule product and service offerings focus on client/server computing; database management/data warehousing; local and wide area networking; and Internet, workflow management, and imaging solutions.

We offer the latest and most reliable products through strategic partnerships with leading hardware and software manufacturers such as Oracle, IBM, and Unisys.

Flexible and cost effective service arrangements are also available. A wide range of labor categories and help desk and maintenance options ensure successful implementation and support of your information technology product investments. VisionOnLine is launching an aggressive growth strategy to increase sales by 150%

per year over the next five years. This goal is to be accomplished by stepping up the sales effort, increasing the advertising and promotions budget, increasing staffing, and expanding the contract labor pool.

VisionOnline GSA Schedule Contract is available to all federal agencies and the Department of Defense.
